

CALL FOR PAPERS

ICSTSM 2020
Sep 21-22, 2020
Toronto, Canada

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICSTSM 2020 : International Conference on Sludge Treatment and Sludge Management is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Sludge Treatment and Sludge Management. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Sludge treatment and disposal	Sidestream treatment technologies
Sewage sludge treatment	Phosphorus recovery
Sources of sludge	Digestion
Characteristics of sludges	Anaerobic digestion
Energy efficient sludge treatment	Aerobic digestion
Alternative sludge disposal methods	Composting
Sludge treatment	Incineration
Ultimate disposal	Drying beds
Problems	Emerging technologies
Biosolids	Different process of sludge treatmentthickening
Treatment processes	Anaerobic digestion
Thickening	Aerobic digestion
Dewatering	Land application of sludge
