

CALL FOR PAPERS

ICTTDE 2020
Sep 21-22, 2020
Toronto, Canada

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICTTDE 2020 : International Conference on Textile Technology and Design Engineering is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Textile Technology and Design Engineering. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Textile Technology and Design
Engineering
Biopolymers
Clothing technology
Design technology
Design, engineering and technology
Designing, optimising and
developing technologies related to
textile products and processes
Fashion design
Global textile business logistics
and management
linear textile structures
Non-woven fabrics (technical and
smart fabrics)

Processing and finishing
operations
Supervising and managing textile
companies
Technical and smart fabrics
Textile design
Textile manufacturing
Textile materials and processes
Textile products and industrial
garment making
Textile products and materials
Textile technology
Textile Technology and Design
