

CALL FOR PAPERS

ICWDPT 2020
Sep 21-22, 2020
Toronto, Canada

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICWDPT 2020 : International Conference on Well Drilling Procedures and Techniques is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Well Drilling Procedures and Techniques. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Well drilling and design methods
Water quality protection for wells
Standards for water and monitoring wells
Well drilling techniques
Cable tool method and variations
Air drilling systems

Auger hole drilling
Well design and construction
Well design in deep confined aquifer systems
Hydrogeological conditions
Well drilling procedures
