

CALL FOR PAPERS

ICWEWT 2020
Sep 21-22, 2020
Toronto, Canada

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICWEWT 2020 : International Conference on Web Engineering and Web Testing is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Web Engineering and Web Testing. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

- Web engineering
- Principles and techniques
- Web development practices
- Web development process
- Architecture design
- Web page design
- Web maintenance
- Project management
- Web system design
- Web testing and evaluation
- Categories of web applications
- Evolutionary web development

- Modeling disciplines
- Design disciplines, tools and methods
- Implementation disciplines
- Testing disciplines
- Applications
- Web quality
- Web effort estimation
- Effort estimation technique
- Web usability
- Web system reliability and performance
- Web application testing
- Web productivity measurement
