

# CALL FOR PAPERS

**ICACIAII 2020**  
**Sep 23-24, 2020**  
**Vancouver, Canada**

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICACIAII 2020 : International Conference on Advances in Cellular Immunology and Auto Immunity, Immunoglobulin is

the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Advances in Cellular Immunology and Auto Immunity, Immunoglobulin. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

B-cell and T-cell receptors  
Extracellular acidosis  
Advances in cellular immunology  
Pattern recognition receptors and cellular encapsulation  
Cellular senescence and cancer in aging  
Vaccination-induced cellular immunity  
Cellular automata and agent based models  
Cellular antioxidant activities  
Hypersensitivity, asthma and allergic responses  
Mast cell in allergic inflammations  
Allergy immunotherapy  
Allergic disease models

Advances in allergy research  
Food allergy  
Autoantibodies, auto-antigens and vaccine antigens in plant cells  
Nucleic acid associated autoantigens  
Intracellular autoantigens  
Tumor antigens and recombinant autoantigens  
Autoantibody explosion  
Cellular and retinal auto antigens  
Auto-antibodies in cancer patients  
Factor-h autoantibody assay  
Immunoglobulin
