

CALL FOR PAPERS

ICAM 2020
Sep 23-24, 2020
Vancouver, Canada

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICAM 2020 : International Conference on Applied Mathematics is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Applied Mathematics. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Algebra , Number theory and
Analysis
Algorithms for Scientific
Computing
Applied Computing and Information
Systems
Applied Mathematics and Statistics
Applied Modeling and Simulation
Approximation methods
Automata, formal languages and
computability
Automated reasoning
Bioinformatics and biomedical
engineering
Biomathematics and Biostatistics
Biostatistics and biomedical
statistics
Business Statistics
Category theory

Chaos theory
Coding theory
Category theory
Chaos theory
Coding theory
Communications, Signals and Coding
Computational biology
Computational complexity
Computational Fluid Dynamics
Computational geometry
Computational Mathematics
Computational number theory
Computational Statistics
