

CALL FOR PAPERS

ICBALR 2020
Sep 23-24, 2020
Vancouver, Canada

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICBALR 2020 : International Conference on Basic and Advanced Limb Reconstruction is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Basic and Advanced Limb Reconstruction. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Preventive podiatric medicine
Arthropathies
Rear foot conditions
Diagnostic techniques
Rotational deformities
Basic and advanced limb reconstruction
Disorders of skin and nail including dermatology of the lower limb

Biomechanics, gait analysis and foot orthoses
Foot and ankle deformities
Monolateral and circular external fixation
Gait implications for angular and rotational deformities
Holistic management and patient centered care
Innovations and new developments in podiatry
