

CALL FOR PAPERS

ICBSD 2020
Sep 23-24, 2020
Vancouver, Canada

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICBSD 2020 : International Conference on Biomedical Sensors and Devices is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Biomedical Sensors and Devices. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Biomedical sensors and instrumentation
Bioelectric and biochemical sensors
Biomedical devices
Biomedical electronics
BioMEMs
Biophysical stimulation
Biosensors and transducers
Catheter, laser and ultrasound interventions

Data and signal acquisition
Diagnostic devices
Implantable sensor systems
Intelligent instrumentation
Microarrays
Surgical tools
Therapeutic devices
Wearable sensors
