

CALL FOR PAPERS

ICCCE 2020
Sep 23-24, 2020
Vancouver, Canada

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICCCE 2020 : International Conference on Communication in Communication Engineering is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Communication in Communication Engineering. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Communication engineering
Electronics
Conventional communications
Conventional analog radio
Two way radio
Conventional radio
Conventional communication systems
Conventional transmission
The conventional view of communication
Digital communication systems
Network infrastructure
Fiber-optic communication
Telecommunication

Transmission
Data mining
Database systems
Digital library
Algorithms
Telecommunication systems
Electrical engineering
Complex electronic switching systems
Ip data systems
Electronic media
Radio link systems
Copper wires, coaxial cable and fiber optics
Wireless mode of communication
