

CALL FOR PAPERS

ICCEEE 2020
Sep 23-24, 2020
Vancouver, Canada

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICCEEE 2020 : International Conference on Community Ecology and Ecosystem Ecology is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Community Ecology and Ecosystem Ecology. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Community ecology and synecology
Ecology and biology of community
Community ecology and evolutionary process
Community ecology in a changing environment
Theories and approaches in community ecology
Interspecific interactions in community
Ecological networks and community ecology
Processes of ecosystems

Components of an ecosystem
Ecological efficiency
Ecological pyramids
Macro-ecology and biogeography
Networks and biotic interactions
Parasites, pathogens and disease
Predation, mutualism, commensalism and parasitism
