

# CALL FOR PAPERS

**ICDIAD 2020**  
**Sep 23-24, 2020**  
**Vancouver, Canada**

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICDIAD 2020 : International Conference on Drip Irrigation and Agricultural Development is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Drip Irrigation and Agricultural Development. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Drip irrigation for agriculture  
Drip irrigation systems and drip irrigation design  
Water distribution and uptake  
System management  
Flow measurement and system maintenance  
Water sampling for drip irrigation  
Components and operation

Water quality  
Soil type and water movement  
Drip irrigation and agricultural development  
Advantages and disadvantages of drip irrigation  
Practical applications of drip irrigation  
Drip irrigation for vegetable production  
Subsurface drip irrigation
