

CALL FOR PAPERS

ICDLMLUI 2020
Sep 23-24, 2020
Vancouver, Canada

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICDLMLUI 2020 : International Conference on Deep Learning and Machine Learning in Ultrasound Imaging is

the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Deep Learning and Machine Learning in Ultrasound Imaging. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Classification of lesions/tissue in
ultrasound

Computer-aided detection in
ultrasound

Disease classification in
ultrasound

Image registration or fusion with
ultrasound

Segmentation in ultrasound

Denosing or super-resolution in
ultrasound

Imaging algorithm

Quality control in ultrasound

Ultrasound-guided interventions
