

CALL FOR PAPERS

ICDSD 2020
Sep 23-24, 2020
Vancouver, Canada

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICDSD 2020 : International Conference on Digital Structural Design is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Digital Structural Design. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Software solutions for steel structures
Computer aided design
3D design simulation

Case studies on use of software in design and simulation
Next generation techniques in computer aided structural design
