

CALL FOR PAPERS

ICEPR 2020
Sep 23-24, 2020
Vancouver, Canada

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICEPR 2020 : International Conference on Environmental Pollution and Remediation is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Environmental Pollution and Remediation. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Air pollution and treatment
Biofuels
Climate Change
Desalination
Energy management
Environmental education programs
Environmental Pollution and Remediation
Environmental protection
Environmental risk assessments
Environmental safety regulations
Environmental Sustainability and Development
Global Warming

Green manufacturing and technologies, Pollution prevention
Greenhouse Effect
Groundwater Issues
Impact of industrialization on the environment
Nanotechnology impacts on environment
Oil spills
Pollution and health issues
Renewable and non-renewable energies
Soil pollution and treatment
Wastewater Management and Treatment
Water pollution and treatment
