

# CALL FOR PAPERS

**ICF 2020**  
**Sep 23-24, 2020**  
**Vancouver, Canada**

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICF 2020 : International Conference on Fluoropolymers is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Fluoropolymers. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Fluoropolymer science and technology  
Polymer and copolymer synthesis and mechanisms  
Structure / property relationships  
Coatings and surfaces  
Biological and biomedical applications  
Membrane and energy conversion applications

Photonic, optical, and electronic applications  
Industrial elastomers and plastics  
Composites, hybrids, and interphases  
Semifluorinated polymers for emerging applications  
Environmental impact and regulatory status  
Reactive materials
