

CALL FOR PAPERS

ICFSM 2020
Sep 23-24, 2020
Vancouver, Canada

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICFSM 2020 : International Conference on Fungal Secondary Metabolites is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Fungal Secondary Metabolites. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Microbiology
Filamentous fungi
Antibiotics
Secondary metabolites
Bioactive substances
Diversity of structure
Mode of action
Biosynthesis

Anti-infective
Genetic engineering
Genome mining
Isolation
Cultivation
Screening
Extreme habitats
