

# CALL FOR PAPERS

**ICFUMLSM 2020**  
**Sep 23-24, 2020**  
**Vancouver, Canada**

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICFUMLSM 2020 : International Conference on Formalizing Urban Methodologies and Languages Stemmed from Mathematics is

the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Formalizing Urban Methodologies and Languages Stemmed from Mathematics. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Urban data analysis  
Data mapping and visualization  
Data and technology in architecture and urbanism  
Formal methods in architecture and urbanism  
Formalization in daily problem solving

Languages stemmed from mathematics  
Information and design project  
Qualitative approaches  
Quantitative methods  
Social sciences
