

# CALL FOR PAPERS

**ICGEPTR 2020**  
**Sep 23-24, 2020**  
**Vancouver, Canada**

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICGEPTR 2020 : International Conference on Gene Expression and Post-Transcriptional Regulation is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Gene Expression and Post-Transcriptional Regulation. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Gene expression  
Mechanism of gene expression  
Transcription  
RNA processing  
Non-coding RNA maturation  
RNA export  
Translation  
Folding  
Translocation  
Protein transport  
Regulation of gene expression  
Transcriptional regulation

Transcriptional regulation in  
cancer  
Post-transcriptional regulation  
Translational regulation  
Post-translational modifications  
Measurement in gene expression  
mRNA quantification  
Protein quantification  
mRNA-protein correlation  
Localization  
Gene networks  
Techniques and tools for gene  
networks  
Gene expression databases
