

# CALL FOR PAPERS

**ICLGM 2020**  
**Sep 23-24, 2020**  
**Vancouver, Canada**

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICLGM 2020 : International Conference on Leukaemia Genomics and Metabolomics is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Leukaemia Genomics and Metabolomics. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Epidemiology of leukaemia  
Various blood cancers and their management  
Pathobiology of leukemia and its development  
Diagnosis and screening of leukaemia  
Myelodysplastic syndromes  
Treatment of blood cancer  
Clinical trials of leukaemia  
Advanced therapies in leukaemia  
Epidemiology of leukaemia

Traditional and alternative medicine for leukaemia  
Anemia and leukaemia  
Drugs for leukemia, lymphoma and myeloma  
Leukemia immunology  
leukaemia genomics and metabolomics  
Hemato immunology and stem cell research  
Bone marrow transplantation and surgery  
Oncology
