

CALL FOR PAPERS

ICLVSSD 2020
Sep 23-24, 2020
Vancouver, Canada

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICLVSSD 2020 : International Conference on Launch Vehicle Systems and Spacecraft Designing is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Launch Vehicle Systems and Spacecraft Designing. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Spacecraft avionics systems,
subsystems and technologies
Space missions, systems, and
architecture
Antenna, RF/Microwave systems and
propagation
Communication and navigation
systems
Aerodynamic forces and structural
flexibility
Flight software engineering and
testing
Observation systems and
technologies
Remote sensing
Spacecraft, launch vehicle systems
and technologies
Air vehicle systems and
technologies

Software and computing
Diagnostics, prognostics, and
health management
Ground and space operations
Management, systems engineering and
cost
Unmanned and manned spacecraft
systems
Materials for spacecrafts
High level panels
Aerodynamic's fundamental
concepts
Aeronautical engineering
