

# CALL FOR PAPERS

**ICMECM 2020**  
**Sep 23-24, 2020**  
**Vancouver, Canada**

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICMECM 2020 : International Conference on Marine Ecosystems, Conservation and Management is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Marine Ecosystems, Conservation and Management. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Marine ecosystems	
Aquatic ecosystems	
Freshwater ecosystems	
Underground water and aquifers	
Climate change in marine ecosystems	Lagoons, mangroves, and coral reefs
Ecosystem-based adaptation in marine ecosystems	The deep sea, and the sea floor
Ecological restoration of marine ecosystems	Freshwater ecosystems
The effects of climate change and global warming on marine ecosystems	Marine and terrestrial environments
Mountain ecosystem management and monitoring	Marine biological productivity
Monitoring and modeling marine ecosystems' response	Aquatic ecosystem
Mountain ecosystem conservation and restoration	Aquatic toxicology
Contaminants of marine ecosystems	Blue carbon
Salt marshes, intertidal zones, and estuaries	Hydrobiology
	Large marine ecosystem
	Marine biology
	Marine habitats
	Marine life
