

CALL FOR PAPERS

ICMIRCD 2020
Sep 23-24, 2020
Vancouver, Canada

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICMIRCD 2020 : International Conference on Mycobacterial Infections and Repurposed Conventional Drugs is

the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Mycobacterial Infections and Repurposed Conventional Drugs. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Mycobacteria identification and differentiation to species level
Case reports of infection by non obligatory pathogenic mycobacteria
Mycobacteria pathogenesis (in vitro, ex vivo and in vivo studies) and virulence factors
Drug susceptibility profile and antimicrobial resistance (AMR) mechanisms

Strategies to combat nontuberculous mycobacteria AMR
New/ repurposed conventional and alternative drugs (plants and venoms)
New therapeutic approaches (inhaled therapeutics, drug targeting, synergistic drug combination)
