

# CALL FOR PAPERS

**ICMWSRT 2020**  
**Sep 23-24, 2020**  
**Vancouver, Canada**

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICMWSRT 2020 : International Conference on Metal Waste Management System and Recycling Technology is

the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Metal Waste Management System and Recycling Technology. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Environmental engineering  
Environmental impacts of metal recycling  
Recycling hazardous and non-hazardous metals  
Metal waste management  
Metal recovery  
Environmental impacts of ferrous metal recycling  
Environment and scrap metal recycling  
Metal recycling  
Benefits of recycling  
Metal recycling industry

Global metals recycling  
Ferrous metal recycling  
Recyclable materials  
Processing  
Resources  
Hazards  
Economic role  
Recycling metals for the environment  
Technologies and processes that control pollution  
Prevent, control and remediate environmental hazards
