

CALL FOR PAPERS

ICMWSRT 2020
Sep 23-24, 2020
Vancouver, Canada

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICMWSRT 2020 : International Conference on Metal Waste Management System and Recycling Technology is

the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Metal Waste Management System and Recycling Technology. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Environmental engineering
Environmental impacts of metal recycling
Recycling hazardous and non-hazardous metals
Metal waste management
Metal recovery
Environmental impacts of ferrous metal recycling
Environment and scrap metal recycling
Metal recycling
Benefits of recycling
Metal recycling industry

Global metals recycling
Ferrous metal recycling
Recyclable materials
Processing
Resources
Hazards
Economic role
Recycling metals for the environment
Technologies and processes that control pollution
Prevent, control and remediate environmental hazards
