

CALL FOR PAPERS

ICOBEC 2020
Sep 23-24, 2020
Vancouver, Canada

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICOBEC 2020 : International Conference on Ocean Biogeochemistry and Ecosystem Cycling is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Ocean Biogeochemistry and Ecosystem Cycling. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Ocean biogeochemistry	Primary productivity in the ocean
Ocean biogeochemical processes and modeling	Organic matter in the ocean
Global ocean biogeochemistry models	Organic biogeochemistry
Ocean biogeochemistry and global change	Stable isotopes
Methods in biogeochemistry	Biogeochemistry of coral reefs
Seasonal patterns of ocean biogeochemistry	Biogeochemistry of near shore environments
Microbial ecology of ocean biogeochemistry	Human influences on ecosystem cycling
Deep ocean environments	Ocean circulation and atmospheric circulation
Carbon cycle
