

# CALL FOR PAPERS

**ICOCC 2020**  
**Sep 23-24, 2020**  
**Vancouver, Canada**

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICOCC 2020 : International Conference on Organobismuth Chemistry and Compounds is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Organobismuth Chemistry and Compounds. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Organobismuth Chemistry  
Elemental Bismuth  
Occurrence and Production  
Physical Properties of Bismuth  
Chemical Properties of Bismuth  
Bismuth Compounds Commercially Available  
Present-day Use of Bismuth  
Toxicology of Bismuth and Bismuth Compounds  
Structural Chemistry of Organobismuth Compounds  
Fundamental Structure Parameters  
Structures of Organobismuth Compounds  
Preparation of Organobismuth Compounds

Organic Transformations Based on Bismuth Compounds  
Organobismuth (III) Compounds  
Organobismuth (III) Compounds with Bi-Group 14 Element Bonds  
Organobismuth (III) Compounds with Bi-Group 15 or Bi-Group 16 Element Bonds  
Organobismuth (III) Compounds with Bi-Group 17 Element Bonds  
Triorganylbismuthine-Transition Metal Complexes  
Organobismuth (III) Compounds with Bi-Transition Metal Linkage  
Organobismuth (V) Compounds  
Triorganylbismuth Dihalides and Related Compounds  
Oxybis (triorganylbismuth) Compounds  
Quaternary Organobismuth (V) Compounds  
Quinquenary Organobismuth (V) and Related Compounds
