

CALL FOR PAPERS

ICPPSPAPE 2020
Sep 23-24, 2020
Vancouver, Canada

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICPPSPAPE 2020 : International Conference on Particle Physics, Subatomic Particles, Antiparticles and Particle Exchange is

the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Particle Physics, Subatomic Particles, Antiparticles and Particle Exchange. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Particle physics
Subatomic particles
Antiparticles
Particle exchange
Interactions and Feynman diagrams
Standard model
Relativity and kinematics
Relativistic wave equations
Quantum mechanics and scattering

Quantum field theory
Quantum electrodynamics
Hadron dynamics
Space-time symmetries
Analytical and numerical methods
for electromagnetic design and
optimization
Experimental laboratories and
experimental methods
Theory and practical applications
Future of particle physics
High energy physics compared to low
energy physics
