

CALL FOR PAPERS

ICSEM 2020
Sep 23-24, 2020
Vancouver, Canada

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICSEM 2020 : International Conference on Smart Energy Management is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Smart Energy Management. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Smart energy management
Sustainable built environment
Smart energy management for a sustainable built environment
Energy efficiency
Energy flexibility

Demand side management
Energy storage
Multi-carrier energy systems
Integrated energy systems
