

CALL FOR PAPERS

ICSFMI 2020
Sep 23-24, 2020
Vancouver, Canada

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICSFMI 2020 : International Conference on Silk Fibroin Materials and Innovation is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Silk Fibroin Materials and Innovation. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Structural analysis of various silks in liquid and solid state
Study on self-aggregation and structure control of silk
Research on new use of silk (medical, environment, chemistry, food, etc)

Research on new processing methods of silks
Research on genetically modified silks
Creation of bioinspired materials based on silks
