

CALL FOR PAPERS

ICSMB 2020
Sep 23-24, 2020
Vancouver, Canada

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICSMB 2020 : International Conference on Structural Molecular Biotechnology is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Structural Molecular Biotechnology. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Structural molecular biotechnology
Biological and molecular structure and function
Alternative biological drugs and molecular drug technologies
Particular surface-exposed proteins
Membrane transporters, channels and enzymes
Enzyme biotechnology, engineering and design
Pathogenic processes and molecular medical biotechnology
Molecular synthesis, synthetic biology and applied biology

Microbiology, molecular biology and molecular biotechnology
Biomolecular engineering and structural molecular biotechnology
Biocatalysis and biotransformation, and metabolic engineering
Bioseparation, bioprocess control and system engineering
Nanobiotechnology, biosensor and bioelectronics, cell culture engineering
Environmental biotechnology
Food biotechnology
