

CALL FOR PAPERS

ICSPGM 2020
Sep 23-24, 2020
Vancouver, Canada

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICSPGM 2020 : International Conference on Solar Power and Generating Methods is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Solar Power and Generating Methods. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

- Solar power
- Mainstream technologies
- Solar power systems
- Solar power design
- Solar power stations
- Solar power plants
- Photovoltaics
- Concentrated solar power
- Development and deployment
- Early days
- Mid-1990s to early 2010s
- Current status
- Forecasts

- Advantages and disadvantages
- Photovoltaic power stations
- Concentrating solar power stations
- Economics
- Cost
- Grid parity
- Self consumption
- Energy pricing and incentives
- Environmental impacts
- Greenhouse gases
- Energy payback
- Emerging technologies
- Concentrator photovoltaics
