

# CALL FOR PAPERS

**ICSUEPD 2020**  
**Sep 23-24, 2020**  
**Vancouver, Canada**

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICSUEPD 2020 : International Conference on Sustainable Urban Engineering and Population Demographics is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Sustainable Urban Engineering and Population Demographics. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Sustainable urban engineering

Architecture

Environmental health and public health

Urban and regional planning

Intelligent transportation systems

Infrastructure asset management

Urban planning

Urban population demographics

Socio-economic dynamics

Public health

Critical urban infrastructure

Vitality of cities

Quality of life

Urban infrastructure

Sustainable metropolitan development

Human ecology and health in urban areas

Wireless and sensor networks for monitoring

Urban regions and infrastructure

Urban infrastructure assessment, protection, and sustainability
