

# CALL FOR PAPERS

**ICTAAC 2020**  
**Sep 23-24, 2020**  
**Vancouver, Canada**

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICTAAC 2020 : International Conference on Theoretical and Applied Aspects of Cybernetics is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Theoretical and Applied Aspects of Cybernetics. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Algebraic Number Theory  
Applied Mathematics  
Artificial Intelligence  
Coding Theory  
Complex Systems Informatics and Modeling  
Computational Algebra  
Computational and Applied Mathematics  
Computational Mathematics  
Computer Science  
Cryptography  
Cyber Security  
Cybernetics  
Cybernetics and Systems Analysis

Databases and Knowledge-based Systems  
Discrete Mathematics and Combinatorics  
Groups, Algorithms and Programming  
Information Content and Processing  
Information Models and Analyses  
Information Security Management  
Information Security Science  
Information Technologies and Knowledge  
Information Theories and Applications  
Networks, Communications and Systems  
Oscillation Theory  
Probability Theory and Mathematical Statistics  
Problems Programming
