

CALL FOR PAPERS

ICTFC 2020
Sep 23-24, 2020
Vancouver, Canada

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICTFC 2020 : International Conference on Trends in Future Computing is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Trends in Future Computing. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Trends in future computing and applications
Reflective computing
Dependable computing
Urban computing
Big data-oriented computing
Fog-computing
Mobile edge computing

Computing high speed sensing data
High-performance computing
Neural computing
Soft computing
Spatial computing
Computing in internet of things
(IoT)-based environments
Computing with sparse, big and huge data
