

# CALL FOR PAPERS

**ICUAEPUS 2020**  
**Sep 23-24, 2020**  
**Vancouver, Canada**

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICUAEPUS 2020 : International Conference on Urban Acoustic Environments and Perception of Urban Sounds is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Urban Acoustic Environments and Perception of Urban Sounds. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

The urban implications of environmental sounds  
The relationships between landscapes and soundscapes  
The associations between land use and the spatial distribution of sound sources  
The effects of urban morphology on sound propagation in urban contexts

New sound mapping techniques  
The use of virtual reality in urban sound planning  
Studies on any other methodological strategies to characterize urban acoustic environments  
Both quantitatively and qualitatively
