

CALL FOR PAPERS

ICUDAT 2020
Sep 23-24, 2020
Vancouver, Canada

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICUDAT 2020 : International Conference on Urban Data Analysis and Technology is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Urban Data Analysis and Technology. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Urban data analysis
Urban big data development
Features of urban big data
Categorization of urban big data
Quality issues in urban data
Applications of urban big data in urban development

Big data and smart cities
Methods and methodologies for urban research
Spatio-temporal urban data analysis
Interactive visual systems for urban data analysis
Data mapping and visualization
Data and technology in architecture and urbanism
