

CALL FOR PAPERS

ICWPMT 2020
Sep 23-24, 2020
Vancouver, Canada

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICWPMT 2020 : International Conference on Wave Power and Modern Technology is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Wave Power and Modern Technology. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Wave power	Point absorber buoy
Tidal power	Surface attenuator
Physical concepts	Electricity generation
Wave power formula	Water desalination
Wave energy	Pumping of water
Wave-energy flux	Oscillating wave surge converter
Wave farms	Oscillating water column
Wave power conversion	Overtopping device
Deep-water characteristics and opportunities	Devices
History	Environmental Effects
Advantages and disadvantages	Potential
Modern technology	Challenges
Ocean power technologies	Portugal, United Kingdom, Australia and United States
