

CALL FOR PAPERS

ICCECNI 2020
Sep 16-17, 2020
Zurich, Switzerland

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICCECNI 2020 : International Conference on Communication Engineering, Computer Networks and Internet is

the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Communication Engineering, Computer Networks and Internet. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Communication engineering
Computer networks and the internet
Data network
Networked computing devices
Data link
Cable media and wireless media
Networking hardware
Optical fiber
Wired communication
Wireless communication
Satellite phone, satellite radio,
satellite television and satellite
internet access
Digital communication systems
Electronics

Network infrastructure
Fiber-optic communication
Telecommunication
Transmission
Data mining
Database systems
Digital library
Algorithms
Conventional communications
Telecommunication systems
Electrical engineering
Complex electronic switching
systems
Ip data systems
