

CALL FOR PAPERS

ICBECDA 2020
Oct 22-23, 2020
Athens, Greece

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICBECDA 2020 : International Conference on Biomedical Electronics and Clinical Data Analysis is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Biomedical Electronics and Clinical Data Analysis. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Biomedical signal processing
Biomedical intelligence and
clinical data analysis
Biomedical imaging and image
processing
Biomedical electronics
Bioinstrumentation, biosensors and
bio-micro/nano technologies
Bioinformatics and computational
biology, systems biology and
modeling methodologies
Cardiovascular and respiratory
systems engineering

Neural and rehabilitation
engineering
Cellular, tissue and genetic
engineering
Cellular and tissue engineering and
biomaterials
Biomechanics and robotics
Therapeutic and diagnostic systems,
devices and technologies and
clinical engineering
Healthcare information systems and
telemedicine
Biomedical engineering education
and society
