

CALL FOR PAPERS

ICIRC 2020
Oct 22-23, 2020
Athens, Greece

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICIRC 2020 : International Conference on Immunotherapy and Radiology in Cancer is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Immunotherapy and Radiology in Cancer. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

MRI Scan
Computed Tomography (CT) scan
Positron Emission Tomography (PET) scan
Mammographic analysis
Integrated PET-CT scan
PET/MRI versus PET/CT Hybrid
Rationale for immunotherapy
Combining radiotherapy

Standard therapies
Androgen manipulation
T-cell modulation
Human cancer stemcells immune biological properties
Novel phosphatidyl service targeting immunotherapy cancer treatment
Targeting myeloma microenvironment with immunotherapy
Bite antibodies application in solid tumours
