

CALL FOR PAPERS

ICCTR 2020
Oct 22-23, 2020
Bali, Indonesia

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICCTR 2020 : International Conference on Construction Technology and Robotics is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Construction Technology and Robotics. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Construction technology
Building technology
Architectural technology
Construction methods
Structural engineering, mechanics
and computation
Computer integrated construction
technology
Construction industry development
Limitations of construction
technology
Computational mechanics

Building materials
Computer-aided design
Product modeling in construction
Robot-oriented design and
construction
Automation and robotics in
construction
Information-integrated construction
technology
Sustainable buildings
Computer-aided drawing
Building methods and project
management
