

# CALL FOR PAPERS

**ICDMIM 2020**  
**Oct 22-23, 2020**  
**Bali, Indonesia**

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICDMIM 2020 : International Conference on Digital Mapping and Information Management is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Digital Mapping and Information Management. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Digital mapping (digital cartography)  
Creating digital-format geologic maps from spatial data  
Information management for digital mapping  
Web-accessible databases and web services  
Geologic map databases  
Migration of map data to new formats  
Earth science information  
LIDAR and other advanced terrain models  
Map/database preparation

3-D databases and visualization techniques  
Global Positioning System  
GPS satellite network  
Automotive navigation systems.  
Digital mapping and data collection  
Applications of digital mapping  
Computer applications of digital mapping  
Scientific applications of digital mapping  
GPS navigation systems and daily uses of digital mapping
