

CALL FOR PAPERS

ICEMDSEAMFM 2020
Oct 22-23, 2020
Bali, Indonesia

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICEMDSEAMFM 2020 : International Conference on Electric Machines and Drive Systems for Emerging Applications and Magnet-Free Machines is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Electric Machines and Drive Systems for Emerging Applications and Magnet-Free Machines. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Transport electrification
PM synchronous machine
Magnet-free machines
Bearing-less machines
High-speed machines

Direct-drive machines
Sensorless control
Model predictive control
Direct torque control
Electric machines and drives in
energy storage
