

CALL FOR PAPERS

ICHEA 2020
Oct 22-23, 2020
Bali, Indonesia

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICHEA 2020 : International Conference on High Energy Astrophysics is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of High Energy Astrophysics. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

High energy gamma-ray astrophysics
from satellites
High energy gamma-ray astrophysics
from the ground
Pulsars and Pulsar Wind Nebulae
Supernova Remnants

Active Galactic Nuclei
Gamma Ray Bursts and Solar Flares
Dark matter indirect searches
