

CALL FOR PAPERS

ICMBDA 2020
Oct 22-23, 2020
Bali, Indonesia

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICMBDA 2020 : International Conference on Mushroom Biotechnology, Developments and Applications is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Mushroom Biotechnology, Developments and Applications. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Mushroom biotechnology
Innovative biotechnological procedures
Growing and developing edible and medicinal mushrooms by using high-tech devices
Newest applications of mushroom biotechnology
Organic food and therapeutic products
Biotechnology of mushroom growth through submerged cultivation
Methods and techniques
Physical and chemical factors
New biotechnology for submerged co-cultivation of mushroom species

Biotechnological recycling
The solid-state cultivation of mushrooms
Controlled cultivation of mushrooms on winery and vineyard wastes
Virtual robotic prototype for safe and efficient cultivation of mushrooms
Conventional technologies used in mushroom cultivation
Sustainable agricultural development
New prospects in pathogen control of button mushroom cultures
Sclerotium-forming mushrooms as an emerging source of medicinal
