

CALL FOR PAPERS

ICSBBE 2020
Oct 07-08, 2020
Beijing, China

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICSBBE 2020 : International Conference on Structural Biology and Biomolecular Engineering is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Structural Biology and Biomolecular Engineering. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Biomolecular engineering
Systems biology
Metabolic engineering
Advanced biomaterials and tissue engineering
Bionanotechnology, bionanosensor, bionanomaterials, biomimetic materials, drug delivery, regenerative medicine
Microfluidics
Microbial assay systems

Bioremediation
Bioprocesses
Immunity Engineering
Clinical uses of Abs
Bioconjugation
Bioimmobilization
