

CALL FOR PAPERS

ICMGB 2020
Oct 19-20, 2020
Dubai, UAE

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICMGB 2020 : International Conference on Marine Genomics and Biodiversity is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Marine Genomics and Biodiversity. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Marine Genomics
Marine Biology and Biotechnology
Marine biodiversity and ecosystem
Functional and evolutionary aspects
of marine organisms
Geographic and phylogenomic
characterization of aquatic
organisms
Metabolic capacities and pathways
of organisms
Environmental genomics
Systems biology
Biogeochemical cycles
Geochemical cycles

Genomics and integrative
approaches
Genomic technologies
Exploring and monitoring
biodiversity
Developing novel model organisms
Exploiting biotechnological
resources
Population genomics and ecology
Evolutionary and developmental
genomics
Comparative genomics
Metagenomics
