

CALL FOR PAPERS

ICCBN 2020
Oct 22-23, 2020
London, United Kingdom

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICCBN 2020 : International Conference on Cognitive Biology and Neuroscience is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Cognitive Biology and Neuroscience. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Cognitive biology
Advances in cognitive biology
Cognitive biology and recent discussions
Cognitive biology and philosophy
Complexity and features of life
The organism as a semiotic and cybernetic system
Phylogeny, ontogeny, and epigeny
Representational semiotics

The brain as an information-control system
Decisional, emotional and cognitive systems
Behavior, learning, and memory
Symbolic systems
Intentionality and conceptualization
Consciousness
Development and culture
Language, mind and brain
