

# CALL FOR PAPERS

**ICCNSWS 2020**  
**Oct 22-23, 2020**  
**London, United Kingdom**

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICCNSWS 2020 : International Conference on Communications, Network Systems and Web Services is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Communications, Network Systems and Web Services. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Communications, Network Systems and Web Services

Architecture, scalability and security of Open API solutions  
Technical and social aspects of Open API and open data  
Service delivery platforms - architecture and applications  
Telecommunication operators API exposition in Telco 2.0 model  
The applications of intelligent techniques in network systems  
Mobile applications  
Network-based computing systems  
Network and mobile GIS platforms and applications  
Computer forensic  
Network security  
Anomaly and intrusion detection  
Traffic classification algorithms and techniques

Network traffic engineering  
High-speed network traffic processing  
Heterogeneous cellular networks  
Wireless communications  
Security issues in Cloud Computing  
Network aspects of Cloud Computing  
Control of networks  
Standards for Web services  
Semantic Web services  
Context-aware Web services  
Composition approaches for Web services  
Security of Web services  
Software agents for Web services  
composition
