

CALL FOR PAPERS

ICCSBIT 2020
Oct 22-23, 2020
London, United Kingdom

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICCSBIT 2020 : International Conference on Cognitive Science and Brain Imaging Techniques is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Cognitive Science and Brain Imaging Techniques. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Cognitive science
Brain imaging
Neuroimaging
Structural imaging
Functional imaging
Brain mapping
Analyzing brain activity
Imaging techniques
Time-based
Location-based
Single photon emission computed tomography (SPECT)
Positron emission tomography (PET)
Electroencephalography (EEG)

Functional magnetic resonance imaging (fMRI)
Optical imaging
Magnetoencephalography (MEG)
Cranial ultrasound
Comparison of imaging types
Criticism and cautions
Computed axial tomography
Diffuse optical imaging
Event-related optical signal
Scientific study of the mind and its processes
The nature, the tasks, and the functions of cognition
Levels of analysis
Interdisciplinary nature
